

SAFETY DATA SHEET

According to directive 1907/2006/EC, 2020/878
Version 6.0 Revision date: 02-03-2024
Trade name: Boric acid ≥99.8%

Page 1 from 13
Print date: 14-5-2024

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identification:

Product name/name: Boric acid ≥99.8%
Registration number (REACH): 01-2119486683-25
Cataloguing number in Annex VI to CLP: 005-007-00-2
EC number: 233-139-2
CAS number: 10043-35-3

1.2 Relevant identified uses of the substance or mixture and uses advised against:

Identified uses: Laboratory chemicals.
Analytical and laboratory applications.
Uses advised against: Do not use for spraying or atomising.
Not to be used for products that come into direct
contact with the skin.
Not to be used for private purposes (household).
Food, drinks and animal feed.

1.3 Details of the supplier of the safety data sheet:

Responsible distributor : ASSYST bvba / A.S.O.W. bvba
Hellegatstraat 13a
2590 Berlaar
Belgium
Tel: +32 495 50 61 14 / +32 496 83 70 27
Website: www.assyst.org / www.artsuppliesonweb.com
Email: ao@assyst.org / vera.opsommer@assyst.org

1.4 Emergency phone number:

For Belgium: Call the **Poison Control Centre (070 245 245 - free)**, if
not available: **02 264 96 30** (normal rate) or your
doctor. In life-threatening situations, always call the
European emergency number **112**.
NHS 24 Direct For help from a GP, visit your GP surgery's website, use
an online service to contact your GP, or call the surgery.
For urgent medical help, use the NHS 111 online
service, or **call 111** if you are unable to get help online.
For life-threatening emergencies, call 999 for an
ambulance. There is more information about getting
medical help on the NHS website.

SECTION 2: Hazard identification

2.1 Classification of the substance or mixture:

Classification according to directive (EC) No 1272/2008 and its amendments.

Reproductive toxicity 1B Repr. 1B H360FD

See SECTION 16 for full text

2.2 Labelling elements:

Labelling according to regulation (EC) No 1272/2008 [CLP/GHS]:

Hazard pictograms:

Signal word:

Danger

Hazard statements:

H360FD May impair fertility. May damage the unborn child.

Safety recommendations:

Precautions - prevention:

According to directive 1907/2006/EC, 2020/878
Version 6.0 Revision date: 02-03-2024
Trade name: Boric acid ≥99.8%

Page 2 from 13
Print date: 14-5-2024

P201 Before using, refer to the special instructions.

P280 Wear protective gloves/protective clothing/eye protection/face protection.

Precautions - reaction:

P308+P313 AFTER (possible) exposure: consult a doctor.

Intended for professional users only.

Labelling of packages with a total content not exceeding 125 ml

Signal word: Danger

Symbol/symbols:

H360FD May impair fertility. May damage the unborn child.

P201 Before using, refer to the special instructions.

P280 Wear protective gloves/protective clothing/eye protection/face protection.

P308+P313 AFTER (possible) exposure: consult a doctor.

2.3 Other hazards:

Results of PBT and vPvB assessment

The results of the assessment of the substance show that it is not a PBT or vPvB substance.

Endocrine-disrupting properties

The dust has endocrine-disrupting properties.

SECTION 3: Composition and information on ingredients

3.1 Substances:

Name of substance: Boric acid
Molecular formula: H₃BO₃
Molar mass: 61.83 g/mol
REACH reg. no: 01-2119486683-25
CAS no: 10043-35-3
EC no: 233-139-2
Catalogue no: 005-007-00-2

Substance of very high concern (SVHC)

Name of substance	CAS No.	EC No.	Included in	Comments
Boric acid	10043-35-3	233-139-2	Candidate list	Repr. A57c

Legend

Candidate list: Substance meets the criteria referred to in Article 57 and possible inclusion in Annex XIV

Repr. A57c: Toxic for reproduction (article 57c)

SECTION 4: First aid measures

4.1 Description of first-aid measures:

General comments

Remove contaminated clothing immediately.

When inhaled

Provide fresh air.

If in doubt or if symptoms persist, consult a doctor.

In case of skin contact

Rinse/shower skin with water.

On eye contact

Rinse gently with water for several minutes.

If in doubt or if symptoms persist, consult a doctor.

If swallowed

In case of accident or if you feel unwell, seek medical advice immediately (show this label if possible).

4.2 Main acute and delayed symptoms and effects

No symptoms and effects are known so far.

According to directive 1907/2006/EC, 2020/878
Version 6.0 Revision date: 02-03-2024
Trade name: Boric acid ≥99.8%

Page 3 from 13
Print date: 14-5-2024

4.3 Indication of any immediate medical care and special treatment needed
None.

SECTION 5: Fire-fighting measures

5.1 Extinguishing media:

Suitable extinguishing agents

Match fire-fighting measures to the environment!

Water, foam, alcohol-resistant foam, dry extinguishing powder, ABC powder.

Unsuitable extinguishing agents

Full water jet.

5.2 Special hazards arising from the substance or mixture

Non-flammable.

5.3 Advice for firefighters

In case of fire and/or explosion, avoid breathing fumes.

With normal precautions, extinguish from a reasonable distance.

Wear self-contained breathing apparatus.

SECTION 6: Measures in case of accidental release of the substance or mixture

6.1 Personal precautions, protective equipment and emergency procedures:

For persons other than emergency services

Use the necessary personal protective equipment.

Avoid contact with skin, eyes and clothing.

Do not inhale dust.

6.2 Environmental precautions

Avoid getting the product into drains, surface water or groundwater.

Retain and remove contaminated wash water.

6.3 Containment and cleaning methods and materials

Advice on how to contain the spill

Covering drains.

Mechanical recording.

Advice on how to clean up the spill

Mechanical recording.

Combating dust formation.

Other information relating to the discharge or release

Put into suitable retainers for disposal.

6.4 Reference to other sections

Hazardous combustion products: see section 5.

Personal protective equipment: see section 8.

Incompatible materials: see section 10.

Instructions for disposal: see section 13.

SECTION 7: Handling and storage:

7.1 Precautions for safe handling of the substance or mixture:

Avoid exposure.

Avoid dust generation.

Measures to prevent fire and aerosol or dust formation

Removal of dust deposits.

Advice on general occupational hygiene

Wash hands before work breaks and end of work.

Keep away from food, drink and animal feed.

7.2 Conditions for safe storage, including incompatibilities

Store in a dry place.

According to directive 1907/2006/EC, 2020/878
Version 6.0 Revision date: 02-03-2024
Trade name: Boric acid ≥99.8%

Page 4 from 13
Print date: 14-5-2024

Incompatible substances or mixtures

Note advice for chemical storage.

Consideration of other advice:

Ventilation requirements

Use of local and general ventilation.

Specific designs for storage rooms or vessels

Recommended storage temperature: 15 - 25°C.

7.3 Specific end use

No information is available.

SECTION 8: Exposure controls/personal protection measures

8.1 Control parameters:

National limits

Occupational exposure limits (occupational exposure limits)

This information is not available.

Human health values

Relevant DNEL and other thresholds

End point	Threshold	Protection objective, route of exposure	Used in	Exposure time
DNEL	8.3 mg/m ³	human, via inhalation	(industrial) employees	chronic - systemic effects
DNEL	392 mg/kg bw/day	human, through the skin	(industrial) employees	chronic - systemic effects

Environmental values

Relevant PNEC and other thresholds

End point	Threshold	Organism	Environmental compartments	Exposure time
PNEC	2.9 mg/l	Aquatic organisms	Freshwater	short-term (one-off)
PNEC	2.9 mg/l	aquatic organisms	Seawater	short-term (one-off)
PNEC	10 mg/l	aquatic organisms	sewage treatment plants (STP)	short-term (one-off)
PNEC	5.7 mg/kg	terrestrial organisms	Bottom	short-term (one-off)

8.2 Exposure control measures

Individual protection measures (personal protective equipment)

Eye/face protection

Wear safety goggles with side protection.

Skin protection

Hand protection

Wear suitable gloves.

Suitable are EN 374-tested gloves against chemicals.

Determine leak tightness/impermeability before use.

It is recommended that, in case of special applications, the chemical resistance of the safety gloves mentioned above is checked together with the supplier of the gloves.

Times are estimated values from measurements at 22°C and permanent contact.

Increased temperatures due to heated fabrics, body heat, etc.

And a reduction in effective layer thickness due to stretching can lead to a significant reduction in breakthrough time.

If in doubt, contact the manufacturer.

For a layer thickness approximately 1.5 times larger / smaller, the respective breakthrough time is doubled / halved.

The data applies only to the pure substance.

When transferred to mixtures of substances, they should only be considered as guidelines.

Type of material

NBR (nitrile rubber)

Material thickness

>0.11 mm

Breakthrough time of glove material

According to directive 1907/2006/EC, 2020/878
Version 6.0 Revision date: 02-03-2024
Trade name: Boric acid $\geq 99.8\%$

Page 5 from 13
Print date: 14-5-2024

>480 minutes (permeation level: 6)

Other protective equipment

Insert rest periods for skin regeneration.

Preventive skin protection (skin-protective creams) is recommended.

Protection of respiratory organs

Respiratory protection is necessary in case of: Dust generation.

Particle filter (EN 143). P2 (filters at least 94% of air particles, colour code: white).

Managing environmental exposure

Avoid getting the product into drains, surface water or groundwater.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties:

Physical state:	solid
Form:	powder, crystalline
Colour:	white
Odour:	odourless
Melting/freezing point:	>100°C (slow decomposition)
Boiling point or initial boiling point and boiling range:	undetermined
Flammability:	non-flammable
Lower and upper explosion limit:	not determined
Flash point:	not applicable
Self-ignition temperature:	undetermined
Decomposition temperature:	>100°C
pH value:	3.8 - 4.8 (in aqueous solution: 30 g/l, 20°C)
Kinematic viscosity:	irrelevant

Solubility

Solubility in water: 49.2 g/l at 20°C (ECHA)

Partition coefficient

Partition coefficient n-octanol/water (log value): -1.09 (pH value: 7.5, 22°C) (ECHA)

Vapour pressure: not determined

Density and/or relative density

Density: 1.489 g/cm³ at 23°C

Relative vapour density: No information is available with this property.

Bulk density: 400 - 600 kg/m³

Particle characteristics: No data available.

Other safety parameters

Oxidising properties: Oxidiser

9.2 Other information

Information on physical hazard classes: hazard classes in accordance with GHS (physical hazards): not relevant.

Other safety features: There is no further information.

SECTION 10: Stability and reactivity

10.1 Reactivity:

This substance is not reactive under normal ambient conditions.

10.2 Chemical stability

The material is stable under normal atmospheric conditions and expected temperature and pressure during storage and handling.

10.3 Possible hazardous reactions

Violent reaction with: strongly oxidising.

10.4 Conditions to avoid

Keep away from heat.

According to directive 1907/2006/EC, 2020/878
Version 6.0 Revision date: 02-03-2024
Trade name: Boric acid ≥99.8%

Page 6 from 13
Print date: 14-5-2024

Decomposition occurs from temperatures of: >100°C.

10.5 Incompatible materials

There is no further information.

10.6 Hazardous decomposition products

Hazardous combustion products: see section 5.

SECTION 11: Toxicological information

11.1 Information on toxicological effects:

Classification according to GHS (1272/2008/EC, CLP)

Acute toxicity

Cannot be classified as acutely toxic.

Route of exposure	End point	Value	Species	Method	Source
Oral	LD50	3,450 mg/kg	Rat		ECHA
Dermal	LD50	>2,000 mg/kg	Rabbit		ECHA

Skin corrosion/irritation

Is not classifiable as corrosive/irritating to the skin.

Serious eye damage/eye irritation

Cannot be classified as severely eye-injurious or irritating to the eyes.

Respiratory or skin sensitisation

Is not classifiable as inhalant or skin allergenic.

Mutagenicity in gametes

Is not classifiable as mutagenic in germ cells (mutagenic).

Carcinogenicity

Is not classifiable as carcinogenic.

Reproductive toxicity

May harm the unborn child. May impair fertility.

CMR National regulations

List of carcinogenic, mutagenic, and reprotoxic substances (SZW list)

Name of substance	CAS No.	Carcinogenicity	Mutagenicity	Reproductive toxicity
Boric acid	10043-35-3			repr F1B D1B

Legend

D1B: Category 1B development
F1B: Fertility category 1B
Repr: Listed in "NON-limiting list of substances toxic for reproduction"

Specific target organ toxicity at single exposure

Cannot be classified as toxic to specific target organs (single exposure).

Specific target organ toxicity on repeated exposure

Cannot be classified as toxic to specific target organs (repeated exposure).

Inhalation hazard

Is not classifiable as dangerous in aspiration.

Symptoms related to physical, chemical and toxicological properties

- After swallowing

No data are available.

- In case of contact with eyes

No data are available.

- After inhalation

No data are available.

- On contact with skin

No data are available.

- Other information

None.

11.2 Additional information

According to directive 1907/2006/EC, 2020/878
Version 6.0 Revision date: 02-03-2024
Trade name: Boric acid ≥99.8%

Page 7 from 13
Print date: 14-5-2024

This substance is known as an "endocrine disruptor".

Endocrine-disrupting chemicals (EDC)

Name of substance	CAS No.	Combined category	Human health category	Category for wildlife
Boric acid	10043-35-3	CAT1	CAT1	CAT2

Legend

CAT1: Category 1 - evidence of endocrine (endocrine) disruption in at least one species using intact animals

CAT2: Category 2 - at least some in vitro evidence of biological activity related to endocrine (endocrine) dysregulation

11.3 Information on other hazards

There is no further information.

SECTION 12: Ecological information

12.1 Toxicity:

Cannot be classified as hazardous to the aquatic environment.

12.2 Persistence and Degradability:

No data are available.

12.3 Bioaccumulation:

Does not concentrate significantly in organisms.

n-octanol/water (log KOW):

-1.09 (pH value: 7.5, 22 °C) (ECHA).

12.4 Mobility in soil:

No data are available.

12.5 Results of PBT and vPvB assessment

No data are available.

12.6 Endocrine disrupting properties

This substance is known as an "endocrine disruptor".

Endocrine-disrupting chemicals (EDC)

Name of substance	CAS No.	Combined category	Human health category	Category for wildlife
Boric acid	10043-35-3	CAT1	CAT1	CAT2

Legend

CAT1: Category 1 - evidence of hormone (endocrine) disruption in at least one species using intact animals

CAT2: Category 2 - at least some in vitro evidence of biological activity related to endocrine (endocrine) dysregulation

12.7 Other adverse effects

No data are available.

SECTION 13: Disposal instructions

13.1 Waste treatment methods:

Dispose of this substance and its packaging as hazardous waste.

Dispose of contents/packaging in accordance with local/regional/national/international regulations.

Information regarding wastewater discharge

Do not throw waste into the sink.

Waste treatment of containers/packaging

Contaminated packaging can be treated like the substance itself.

Fully emptied containers can be recycled.

Relevant provisions on waste prevention

The allocation of waste key numbers/waste markings should be industry- and process-specific in accordance with AVV.

Hazardous properties of waste

HP 10 toxic for reproduction

Comments

Waste is separated into the categories that can be treated separately by local or national waste management services.

Please note the relevant national or regional provisions.

Uncontaminated and completely empty containers can be used again.

According to directive 1907/2006/EC, 2020/878
 Version 6.0 Revision date: 02-03-2024
 Trade name: Boric acid ≥99.8%

Page 8 from 13
 Print date: 14-5-2024

SECTION 14: Information relating to transport

14.1 UN number or ID number

Not subject to transport regulations.

14.2 Proper cargo name according to UN model regulations

Not granted.

14.3 Transport hazard class(es)

None.

14.4 Packing group

Not granted.

14.5 Environmental hazards

Not hazardous to the environment, according to regulations for the transport of dangerous goods.

14.6 Special precautions for the user

There is no further information.

14.7 Sea transport in bulk in accordance with IMO instruments

The cargo is not meant to be transported in bulk.

14.8 Information for each of the UN regulations

Transport of dangerous goods by road, rail or inland waterway (ADR/RID/ADN) - Additional information

Not subject to ADR, RID and ADN.

International Maritime Dangerous Goods Code (IMDG) - Additional information

Not subject to the IMDG.

International Civil Aviation Organisation (ICAO-IATA/DGR) - Additional information

Not subject to ICAO-IATA.

SECTION 15: Statutory information

15.1 Safety, health and environmental regulations and legislation specific to the substance or mixture:

Relevant European Union (EU) provisions

Restrictions in accordance with REACH, Annex XVII

Restricted hazardous substances (REACH, Annex XVII)

Name of substance	Name according to inventory	CAS No.	Restriction	No.
Boric acid	toxic for reproduction		R28-30	30
Boric acid	substances in ink for tattoo or permanent make-up		R75	75

Legend

R28-30

1. May not be placed on the market or used:

- ✓ as dust,
- ✓ as a constituent of other substances, or
- ✓ in mixtures,

for supply to the general public, in individual concentrations equal to or greater than:

- ✓ or the relevant specific concentration limit specified in Part 3 of Annex VI to Regulation (EC) No 1272/2008,
- ✓ or the relevant overall concentration limit specified in Part 3 of Annex I to Regulation (EC) No 1272/2008.

Without prejudice to the application of other Community provisions relating to the classification, packaging and labelling of substances and mixtures, suppliers shall ensure before placing on the market that the packaging of such substances and mixtures is marked visibly, legibly and indelibly as follows: "For use by professional user only".

2. Point 1, however, does not apply to:

- a) medicinal products for human or veterinary use within the meaning of Directive 2001/82/EC and Directive 2001/83/EC;
- b) cosmetic products within the meaning of Directive 76/768/EEC;
- c) the following fuels and oil products:
 - ✓ fuels referred to in Directive 98/70/EC,
 - ✓ mineral oil derivatives intended for use as fuel in mobile or fixed combustion plants,
 - ✓ fuels sold in a closed system (e.g. liquid gas bottles);
- a) artists' paints covered by Regulation (EC) No 1272/2008;
- b) the substances listed in Appendix 11, column 1, for the uses indicated in column 2 of that Appendix. Where a date is specified in column 2 of Appendix 11, the derogation shall apply until the said date;
- c) devices covered by Regulation (EU) 2017/745.

R75

1. Shall not be placed on the market in mixtures for tattooing purposes, and mixtures containing such substances shall not be used for tattooing purposes after 4 January 2022 if the substance(s) in question is/are present or the following circumstances occur:

According to directive 1907/2006/EC, 2020/878
Version 6.0 Revision date: 02-03-2024
Trade name: Boric acid $\geq 99.8\%$

Page 9 from 13
Print date: 14-5-2024

- a) in the case of a substance classified in Part 3 of Annex VI to Regulation (EC) No 1272/2008 as carcinogenic category 1A, 1B or 2, or as germ cell mutagenic category 1A, 1B or 2, the concentration of that substance in the mixture is equal to or greater than 0.00005 % by weight;
 - b) in the case of a substance classified as toxic to reproduction category 1A, 1B or 2 in Part 3 of Annex VI to Regulation (EC) No 1272/2008, the concentration of that substance in the mixture is equal to or greater than 0.001 % by weight;
 - c) in the case of a substance classified as a category 1, 1A or 1B skin allergen in Part 3 of Annex VI to Regulation (EC) No 1272/2008, the concentration of that substance in the mixture is equal to or greater than 0.001 % by weight;
 - d) in the case of a substance classified in Part 3 of Annex VI to Regulation (EC) No 1272/2008 as corrosive to the skin, category 1, 1A, 1B or 1C, or irritant to the skin, category 2, or for serious eye damage, category 1 or irritant to the eyes, category 2, the concentration of that substance in the mixture is equal to or greater than:
 - i. 0.1 % by weight, if the substance is used solely as a pH regulator;
 - ii. 0.01% by weight, in all other cases;
 - e) in the case of a substance listed in Annex II to Regulation (EC) No 1223/2009 (*1), a concentration in the mixture equal to or greater than 0,00005 % by weight; in the case of a substance for which column g (Product type, body parts) of the table in Annex IV to Regulation (EC) No 1223/2009 indicates one or more of the following types of conditions, the concentration of the substance in the mixture equal to or greater than 0,00005 % by weight:
 - i. "Products washed off, out or away";
 - ii. "Do not use in products applied to mucous membranes";
 - iii. "Do not use in eye products";
 - f) in the case of a substance for which a condition is specified in column h (Maximum concentration in the product ready for use) or column i (Other) of the table in Annex IV to Regulation (EC) No 1223/2009, the concentration of the substance in the mixture does not meet the condition specified in that column, or the substance otherwise fails to meet it;
 - g) in the case of a substance listed in Appendix 13 to this Annex, the concentration of the substance in the mixture is equal to or greater than the concentration limit specified for that substance in that Appendix.
2. For the purposes of this entry, the use of a mixture "for tattooing purposes" means the injection or insertion of the mixture into the skin, mucous membranes or eyeball of a person by means of a process or procedure (including procedures commonly referred to as "permanent make-up", cosmetic tattooing, "microblading" and "micropigmentation"), for the purpose of leaving a permanent mark(s) or drawing on that person's body.
3. Where a substance not listed in Appendix 13 falls under more than one of items (a) to (g) of paragraph 1, the most stringent of the concentration limits set out in those items shall apply to that substance. Where a substance listed in Appendix 13 also falls under one or more of items (a) to (g) of paragraph 1, the concentration limit set out in paragraph 1(h) shall apply to that substance.
4. By way of derogation, paragraph 1 shall not apply to the following substances until 4 January 2023:
- a. Pigment Blue 15:3 (CI 74160, EC No 205-685-1, CAS No 147-14-8);
 - b. Pigment Green 7 (CI 74260, EC No 215-524-7, CAS No 1328-53-6).
5. If Part 3 of Annex VI to Regulation (EC) No 1272/2008 is amended after 4 January 2021 and thereby classifies or reclassifies a substance in such a way that it falls under (a), (b), (c) or (d) of paragraph 1 of this entry, or under a different entry than before, and if the date of application of that new or revised classification is after the date referred to in paragraph 1 or, as the case may be, paragraph 4 of this entry, that amendment shall be treated, for the purposes of applying this entry to that substance, as applying on the date of application of that new or revised classification.
6. Where the entry of a substance in Annex II or Annex IV to Regulation (EC) No 1223/2009 is amended after 4 January 2021 such that the substance falls under (e), (f) or (g) of point 1 of this entry, or under a different point than before, and if the amendment takes effect after the date referred to in point 1 or, as the case may be, point 4 of this entry, that amendment shall be treated, for the purposes of applying this entry to that substance, as taking effect from the date falling 18 months after the entry into force of the act which adopted that amendment.
7. Suppliers placing a mixture on the market for tattooing purposes after 4 January 2022 shall ensure that the following information is indicated on the mixture:
- a) the text "Mixture for use in tattoos or permanent make-up";
 - b) a unique batch identification reference number;
 - c) the list of ingredients according to the nomenclature defined in the glossary of common ingredient names in accordance with Article 33 of Regulation (EC) No 1223/2009, or, in the absence of a common ingredient name, the IUPAC name. In the absence of a common ingredient name or IUPAC designation, the CAS and EC number. Ingredients shall be listed in descending order of weight or volume of ingredients at the time of formulation. Ingredient means any substance added during the formulation of the mixture for tattooing purposes and present therein. Impurities are not considered ingredients. Where the name of a substance used as an ingredient within the meaning of this entry must already be indicated on the label in accordance with Regulation (EC) No 1272/2008, that ingredient need not be indicated in accordance with this Regulation;
 - d) the additional entry "pH regulator" for substances covered by paragraph 1(d)(ii);
 - e) the statement "Contains nickel. May cause allergic reactions." if the mixture contains nickel below the concentration limit specified in Appendix 13;
 - f) the statement "Contains hexavalent chromium (VI). May cause allergic reactions." if the mixture contains chromium (VI) below the concentration limit specified in Appendix 13;
 - g) safety precautions for use, if not already required to be indicated on the label in accordance with Regulation (EC) No 1272/2008. The information shall be clearly visible, easily legible and indelible. The information shall appear in the official language(s) of the Member State(s) where the mixture is marketed, unless otherwise specified by the Member State(s) concerned. If there is not enough space on the packaging for the information referred to in the first subparagraph, that information shall, except as regards point (a), be included in the instructions for use. The person administering the mixture shall provide the information

According to directive 1907/2006/EC, 2020/878
Version 6.0 Revision date: 02-03-2024
Trade name: Boric acid ≥99.8%

Page 10 from 13
Print date: 14-5-2024

specified on the packaging or in the instructions for use in accordance with this point to the person undergoing the procedure before the mixture is used for tattooing purposes.

8. Mixtures without the text "Mixture for use in tattoos or permanent make-up" shall not be used for tattooing purposes.

9. This entry does not apply to substances which are gases at a temperature of 20 °C and pressure of 101.3 kPa, or which generate a vapour pressure greater than 300 kPa at a temperature of 50 °C, with the exception of formaldehyde (CAS No 50-00-0, EC No 200-001-8).

10. This entry does not apply to the placing on the market or use of mixtures for tattooing purposes that are placed on the market or used exclusively as medical devices or accessories to a medical device within the meaning of Regulation (EU) 2017/745. Where a mixture has not been placed on the market or cannot be used exclusively as a medical device or an accessory to a medical device, the requirements of Regulation (EU) 2017/745 and the requirements of this Regulation apply cumulatively.

TSCA Toxic Substance Control Act

15.2 Chemical safety assessment:

According to REACH, Article 14(1), a chemical safety assessment has been carried out for this substance or components of this mixture when the substance is registered in quantities of 10 tonnes or more per year per registrant.

SECTION 16: Other information

Indication of changes (revised safety data sheet)

Aligning with regulation: Regulation (EC) No 1907/2006 (REACH), amended by 2020/878/EU.

Section 2.2:

Labelling of packages with a total content not exceeding 125 ml: change in the list (table)

Section 2.3:

According to directive 1907/2006/EC, 2020/878
Version 6.0 Revision date: 02-03-2024
Trade name: Boric acid $\geq 99.8\%$

Page 12 from 13
Print date: 14-5-2024

Endocrine-disrupting properties: The substance has endocrine-disrupting properties.

Heading 15.1:

National inventories: change in listing (table).

Substance of very high concern (SVHC): change in the list (table).

Directive on industrial emissions (IE Directive).

Section 15.2:

Chemical safety assessment: According to REACH, Article 14(1), a chemical safety assessment has been carried out for this substance or components of this mixture when the substance has been registered in quantities of 10 tonnes or more per year per registrant.

List of relevant sentences (code and full text as mentioned in sections 2 and 3)

H360FD May impair fertility. May damage the unborn child.

Abbreviations and acronyms

ADN:	Accord européen relatif au transport internationale des marchandises Dangereuses par voies de navigation Intérieures (European Agreement concerning the International Carriage of Dangerous Goods by Inland Waterways)
ADR:	Accord relatif au transport internationale des marchandises Dangereuses par route (Agreement on the international carriage of dangerous goods by road)
ADR/RID/ADN:	Agreements on the international carriage of dangerous goods by road/rail/inland waterway (ADR/RID/ADN)
CAS:	Chemical Abstracts Service (database for chemicals and their unique number, the CAS registration number)
Catalogue no.:	The catalogue number is the identifier used in Part 3 of Annex VI to Regulation (EC) No 1272/2008
CLP:	Regulation (EC) No 1272/2008 on Classification, Labelling and Packaging (CLP) of substances and mixtures.
CMR:	Carcinogenic, Mutagenic or Reproductive toxicity
DGR:	Dangerous Goods Regulations, regulations for the transport of dangerous goods, see IATA/DGR
DNEL:	Derived No-Effect Level.
EC No.:	he EC register (EINECS, ELINCS and the NLP register) is the source for the seven-digit EC number as a prefix for substances (European Union)
ED:	Endocrine disruptor
EINECS:	European Inventory of Existing Commercial Chemical Substances.
ELINCS:	European List of Notified Chemical Substances
GHS:	"Globally Harmonised System of Classification and Labelling of Chemicals", developed by the United Nations
IATA:	International Air Transport Association
IATA/DGR:	Dangerous Goods Regulations (DGR) for aviation (IATA)
ICAO:	International Civil Aviation Organisation.
ICAO-TI:	Technical instructions for the safe transport of dangerous goods by air.
IMDG:	International Maritime Dangerous Goods Code (IMDG code)
IMDG Code:	International Maritime Dangerous Goods Code
LD50:	Lethal dose 50 %: the LD50 corresponds to the dose of a tested substance at which 50 % of the test subjects die during a specified time interval
NLP:	No-Longer Polymer
PBT:	Persistent, Bioaccumulative and Toxic
PNEC:	Predicted no-effect concentration
REACH:	Registration, Evaluation, Authorisation and Restriction of Chemicals.
Repr:	Reproductive toxicity

According to directive 1907/2006/EC, 2020/878
Version 6.0 Revision date: 02-03-2024
Trade name: Boric acid $\geq 99.8\%$

Page 13 from 13
Print date: 14-5-2024

RID : Règlement concernant le transport International ferroviaire des marchandises Dangereuses (Regulations concerning the international carriage of dangerous goods by rail)
SVHC: Substance of very high concern
VOCS: Volatile organic compounds
vPvB: Very persistent and very bioaccumulative

Further information

Training advice:
Provide proper information, instruction and training for users.

Reference documents:

Regulation (EC) No 1272/2008 on classification, labelling and packaging (CLP) of substances and mixtures.
Regulation (EC) No 1907/2006 (REACH), as amended by 2020/878/EU.
Transport of dangerous goods by road, rail or inland waterways (ADR/RID/ADN).
International Maritime Dangerous Goods Code (IMDG). Dangerous Goods Regulations (DGR) for aviation (IATA).

Rejection of liability
