## APOXIE CLAY

### **DESCRIPTION:**

Apoxie Clay is the ultimate permanently self-curing synthetic clay, combining the properties and benefits of modeling clay with those of epoxy. This product offers improved detailing, plasticity, accuracy and machining capabilities, making this clay very user friendly. Apoxie Clay offers superior modeling, impressions and detail finishing, with a flat, skin-like texture.

### **PROPERTIES:**

- ✓ Premium Quality, easy to use
- ✓ Clay-like texture with superior plasticity, accuracy and processing
- ✓ Improved detailing
- ✓ 2-3 hours working time
- ✓ Self-hardening, no ovens needed.
- ✓ 0% shrinkage / breakage
- ✓ Water resistant
- ✓ Not flammable
- ✓ Not hazardous, no solvents or fumes.
- ✓ Permanently adheres to cleaned surfaces such as porcelain, ceramics, vinyl, polymers, foams, fiberglass, wood, some plastics, ...
- ✓ Hard and durable finish: can be sanded, tapped, drilled, cut, turned, ... without cracking or flaking.
- ✓ Can be painted both wet and dry.
- ✓ The clay-like texture gives professional painting and finishing results
- ✓ Life can be extended by freezing and defrosting the product.

### **INSTRUCTIONS FOR USE:**

- ✓ Wear suitable gloves
- ✓ Take equal parts of A and B. Both have a clay-like consistency.
- ✓ Mix for 2 minutes until you obtain a homogeneous mass.
- ✓ Apoxie Clay can now be applied for 2-3 hours and can be smoothed with the finger and a little water or Aves Safety Solvent.
- ✓ Apoxie Clay can be painted, either wet or dry.
- ✓ Clean with water and soap or with Aves Safety Solvent.

### **VARIOUS APPLICATIONS:**

- ✓ Crafts & toys (sculptures, moulds, detailed impressions, fingerprints, ...)
- ✓ Repairs & restoration (Antiques, dolls, vases, ceramics, porcelain, earthenware, statues, museum pieces, furniture, ...)
- ✓ Art, Design, Modelmaking & Special Effects (Model crafting, filling seams, cracks and holes, wood carving, wildlife art, dioramas, prototypes, miniatures, ...)
- ✓ Endless applications for artists, model makers, student and, ...

### **TIPS:**

- ✓ To prevent the product from sticking to your hands, you should first apply a little olive oil.
- ✓ If the Apoxie Clay is too sticky to work with, wait for about 20 minutes. As time passes, the product will become less sticky and you will obtain more detail.
