APOXIE PASTE

DESCRIPTION:

Apoxy Paste is an innovative adhesive used to permanently fill, unite, seal, adjust and fabricate most materials. This all-purpose 2-part paste is safe and easy to use. Once applied, it becomes slightly translucent. Can be coloured with pigments or paints. Applying water will give it a semi-gloss finish. Working time: 1-3 hours, fully cured after 24 hours. Can be painted. Is waterproof, with 0% shrinkage and with flexible grip.

PROPERTIES:

- ✓ Electrically non-conductive
- ✓ Extreme adhesive, durable and strong
- ✓ Working time: approx. 3 hours. Full cure time is 24 hours
- ✓ Semi-glossy finish
- ✓ Self-hardening, no ovens needed.
- ✓ 0% shrinkage
- ✓ Waterproof
- ✓ Non-hazardous, non-flammable. No solvents or fumes.
- ✓ Permanently adheres to cleaned surfaces such as ceramics, foam, fibreglass, textiles, metal, plastic, glass, etc.
- ✓ Can be sanded, tapped, drilled, cut, turned, ...
- ✓ Life can be extended by freezing and defrosting the product.

INSTRUCTIONS FOR USE:

- ✓ Wear suitable gloves
- ✓ Take equal parts of A and B. Both have a clay-like consistency. To make part A thinner, you can gently heat it in hot water or in the microwave for 10 seconds. Allow to cool before handling. Note that heated products will harden faster.
- ✓ Mix with a tongue depressor for approx. 2 minutes until the product feels warm and has obtained a homogeneous colour.
- ✓ Pasta can be colored with a small amount of paint or pigment after mixing.
- ✓ Apoxie Super White can now be applied for 1-3 hours. It can be spread thickly or thinly with a tool / tongue depressor, or one can pour it.
- ✓ Clean with water and soap or with Aves Safety Solvent.
- ✓ 24 hours curing time is required to get the product waterproof and for hard finish purposes.

VARIOUS APPLICATIONS:

- ✓ Taxidermy applications
- ✓ Arts & Crafts
- ✓ Restorations on antiques
- ✓ Glass art
- ✓ Jewellery
- ✓ Setting stones
- ✓ Minor repairs to toys and dolls (eggshell cracking & crazy eyes)
- ✓ Home, garden and kitchen applications
- ✓ Wood carving
- ✓ Wildlife art (use as glue to hold jaws together, fish and fin repairs, skeletal and skull modifications)
- ✓ Model building
- ✓ Prototypes
- ✓ ...

TIPS:

- ✓ Apoxie Paste works great in flexible shapes.
- ✓ Apply Apoxie Paste on top of foam to create a nice hard top layer. Apoxie Paste will not affect the foam!
