APOXIE SUPER WHITE

DESCRIPTION:

Apoxie Super White combines the features and benefits of modeling clay with the adhesive strength of epoxy! It has a firm, fine grain consistency and fresh, white color that allows you to see more detail. Cures with a smooth, semi-gloss finish. Excellent resin compatibility; adheres to most clean surfaces. Ideal for sculpting, embellishing, gluing and backfilling. Accepts paints, stains, mica powders and more for a variety of finishes and options for highlighting.

PROPERTIES:

- ✓ Improved detailing & impressions
- ✓ Smooth finish
- ✓ More resin options
- ✓ Working time: approx. 1 hour. Full cure is 24 hours
- ✓ Semi-glossy finish
- ✓ Self-hardening, no ovens needed.
- ✓ 0% shrinkage
- ✓ Water resistant and super strong
- ✓ Non-hazardous, non-flammable. No solvents or fumes.
- ✓ Permanently adheres to cleaned surfaces such as porcelain, ceramics, vinyl, polymers, foams, fiberglass, wood, some plastics, ...
- ✓ Can be sanded, tapped

INSTRUCTIONS FOR USE:

- ✓ Wear suitable gloves
- ✓ Take equal parts of A and B. Both have a clay-like consistency.
- ✓ Mix for 2 minutes until you obtain a homogeneous mass.
- ✓ Allow the mixed product to rest for 5 minutes before processing.
- ✓ Apoxie Super White can now be applied for 1 hour and can be smoothed with the finger and a little water or Aves Safety Solvent.
- ✓ Apoxie Clay can be painted, either wet or dry.
- ✓ Clean with water and soap or with Aves Safety Solvent.

VARIOUS APPLICATIONS:

- ✓ Crafts & toys (make special scenery, sculptures, textured stamps, molds, props, model horses, dolls, miniatures, jewellery, glass art, ...). Suitable for both home and school projects.
- ✓ Repairs & restorations (Antiques, toys, pottery, sculptures, museum pieces, tools, furniture, ...). For home, school and professional applications.
- ✓ Art, Design, Modelmaking & Special Effects (Theme park projects, filling and covering holes, seams and fixtures, prototypes, aquarium customization, outdoor displays, wildlife art, ...)
- ✓ Endless applications for artists, model makers, students, ...

TIPS:

- ✓ To prevent the product from sticking to your hands, you should first apply a little olive oil.
