AVES PAPER MACHE

DESCRIPTION:

Aves Paper Mache is a safe maché, without asbestos, made with virgin paper pulp. This maché has a fine structure, is white, light-weight, strong and very versatile.

PROPERTIES:

- ✓ Lightweight
- ✓ Very strong
- ✓ White color
- ✓ High quality of results
- ✓ Lots of detail
- ✓ Easy to clean
- ✓ Set time: Professional 30 minutes
- ✓ Made with fine structure paper pulp
- ✓ Minimum dust when mixing
- ✓ Safe, non-flammable and non-hazardous

INSTRUCTIONS FOR USE:

- ✓ Take dry paper maché powder and mix with water to the desired consistency. If desired, you can add colorants.
- ✓ Recommended mixing ratios (maché : water)
- ✓ 3:1 if you want a mixture to pour
- ✓ 4:1 if you want a mixture for kneading.
- ✓ Maché is now ready for use. Processing time is about 30-45 minutes, depending on the mixed consistency. Maché is fully cured after 1 to 4 days, when all the moisture has dried.

VARIOUS APPLICATIONS:

- ✓ In the classroom and at camp
- ✓ Arts, crafts and hobbies
- ✓ Design and art prototypes
- ✓ Making of moulds and prints
- ✓ Model building
- ✓ Theatre props
- ✓ Piñatas
- ✓ Making pots, figurines ...
- ✓ Endless applications for artists, model makers, students, ...

TIPS:

- ✓ Colouring is fun and easy by adding dyes, paints or pigments to the wet mix of the maché. A few drops will suffice.
